PROFESSIONAL SUMMARY

Final-year Computer Science student with hands-on full stack development experience in Java, Spring Boot, and React.js. Built and deployed projects covering REST APIs, MySQL database design, and unit testing with JUnit and Mockito. Strong foundation in OOP, MVC architecture, data structures & algorithms, and Git-based collaborative development.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML5, CSS3
Backend: Spring Boot, Spring MVC, Spring REST, JDBC, FastAPI, RESTful APIs
Frontend: React.js, Tailwind CSS
Database: MySQL, SQLite
Testing & Tools: Git, GitHub
Principles: OOP, MVC, Data Structures & Algorithms, Design Principles

PROJECTS

Web Trust Analyzer – Dashboard (Frontend) | *React.js, JavaScript, CSS* | 🌐

- Built the **React.js monitoring dashboard** for a Web Application Firewall (WAF) project, consuming REST APIs exposed by a Go-based firewall backend
- Developed real-time visualizations for security events, attack statistics, severity distribution, and threat-type breakdowns using live API data
- Implemented a cybersecurity-themed responsive UI including Overview, Threats, OWASP status, and Settings tabs for firewall configuration management
- Built interactive controls for rate-limit configuration, IP whitelist/blacklist management, and OWASP protection toggles, integrated with backend config APIs
- Collaborated within a team setup, focusing on frontend architecture and API integration while backend logic (Go, SQLite) was handled separately

SummarAI – AI Text Summarizer | *React, FastAPI, Python, SQLite* | 🌐

- Built a full stack AI-powered text summarization app using **React 19** frontend and **FastAPI** backend, integrating the **Facebook BART (bart-large-cnn)** model for abstractive summarization
- Implemented drag-and-drop file upload supporting PDF, DOCX, and TXT formats with **PyPDF2** parsing, along with 4 summary modes (Normal, Academic, Simple, Research) and 3 length options
- Designed secure user authentication using **JWT** and **bcrypt**, with **SQLite** for persisting user data and summary history with search and favorites functionality
- Integrated **YAKE** for keyword extraction with click-to-highlight in summaries, key point extraction, reading time estimates, and compression ratio visualization
- Built a responsive UI with dark/light mode, skeleton loading states, and PDF export of summaries using jsPDF

EDUCATION

Vellore Institute of Technology, Bhopal, Madhya Pradesh

B.Tech in Computer Science | CGPA: 7.82/10.0

2023 – 2027

CERTIFICATIONS & ACHIEVEMENTS

- **Google IT Support Certificate** – Google Career Certificates via Coursera (Jan 2026) | Verify
- **The Bits and Bytes of Computer Networking** – Google via Coursera (Dec 2025) | Verify
